

Wickhams Brown

EU PPWR Compliance Statement

We hereby confirm that our packaging materials, packaging systems, and related compliance processes are managed in accordance with the applicable requirements of Regulation (EU) 2025/40 on Packaging and Packaging Waste (PPWR).

We maintain appropriate technical documentation, supplier compliance records, recyclability assessments, packaging specifications, labelling controls, and Extended Producer Responsibility (EPR) obligations to support ongoing regulatory compliance within the European Union market.

Packaging placed on the EU market is reviewed and assessed against relevant PPWR requirements, including packaging minimisation, recyclability, recycled content, substance restrictions, and consumer information obligations, where applicable.

This statement is issued based on current regulatory requirements, supplier declarations, internal assessments, and available supporting documentation.

Signed:

Position: Operations Manager
